LATEST MEASURES

- In a new report on the Coronavirus pandemic in Chile from the Palacio de La Moneda, the Minister of Health Enrique Paris reported that the variation in new cases at the national level is -2% in the last seven days and -8% in the last fourteen. In addition, he pointed out that 10 regions decreased their cases in the last seven days, and in the same way, 10 regions did so in the last fourteen.
- The Secretary of State stressed that two days ago the figure of 9 million PCR tests was exceeded, which is why Chile is the leader in Latin America.
- He also pointed out that, nationwide, 2,869,036 people have been vaccinated against SARS-CoV-2 and that around 190 thousand doses of Pfizer-BioNTech and two more shipments of Sinovac will arrive, of approximately two million doses each. one.
